

Een trofee met découpage papier

Deze papier-maché trofee-hertenkop is wit geschilderd en daarna gedecoreerd met découpage papier, bevestigd met découpage lijmlak.

Inspiration: 13050

1.

Paint the papier-mâché trophy with white Plus Color Craft Paint and let it dry. Then cut small pieces of decoupage paper, and attach these onto the trophy using decoupage lacquer. Use a brush for this and make sure to apply the decoupage lacquer to the trophy as well as to the decoupage paper. When the trophy is fully covered, apply another coat of decoupage lacquer all over to give a smooth and uniform surface.
